

For the last year, Main street America has gathered in massive public protests against the taxes, bailouts and spending that is destroying the country our forefathers died for. Big Government continues its takeover of the economy and it must be stopped.

For the last 12 years, our fiscally irresponsible Congressman has voted for numerous federal intrusions into health care, education and other unconstitutional central government expansions that are bankrupting our country, including the Bankster Bailout (TARP) and another \$2 billion in cash for clunkers. The career ambition of this politician has been to give away more of Idaho's land to the federal government.

Idaho can no longer afford to allow the East Coast Establishment to elect our Congressman. But they are once again filling their boy's campaign coffers with special interest money. We must fight back.

It's time to throw the incumbent out! Shameful Simpson deserves a pink slip and it must be delivered in the upcoming Republican Primary election. Let's replace him with a Champion of the Constitution.

Chick Heilesen is known all over Idaho's 2nd Congressional District because he has been fighting for decades to get our elected representatives to stop their irresponsible spending and all of the other unconstitutional attacks on our freedom. He is not a politician and he knows exactly what he'll be up against when he takes our fight to the halls of Congress.

Idaho must stand up for our values by sending a Champion to Congress who will fight to restore the authority of the Constitution over the federal government. By ignoring the Constitution, the federal government has become too Big, too Intrusive, and too Expensive! We must once again bind it down from mischief with the chains of the Constitution.

*The most powerful message we can send Washington is a
Champion of the Constitution! www.VoteChick.com*
